A generic FAQ for all of our Arabic scripts fonts can be found here: [Arabic Fonts - FAQ](#). FAQ's specific to Ruwudu are found below.

Where does the name Ruwudu come from?

Ruwudu is the Manga word for "writing". This style of writing is used by the Manga people in Niger, West Africa.

What characters are included with this release?

See [Character Set Support](#) for the full listing.

I notice that Ruwudu is missing a number of characters that I would like. Will you add these?

It is impossible for us to add every glyph that every person desires, but we do place a high priority on adding complete coverage of all the characters defined in Unicode for this Kano style of Arabic script use (excluding the Arabic Presentation Forms blocks, which are not recommended for normal use). You can send us your requests, but please understand that we are unlikely to add symbols where the user base is very small, unless they have been accepted into Unicode.
